Richard F. Celeste, Governor

APR 24 1987

Dear Sir:

This letter is to notify you that the application(s) you submitted for permit(s) to operate the air contaminant source(s) as described on the attached notice(s) have been reviewed by the Ohio EPA.

Under current Ohio Environmental Protection Agency policies and regulations, operation of these sources does not require a permit to operate. Consequently, the Ohio EPA staff has recommended to the Director that the source(s) be placed on registration status. This means that the source is placed in the computer file and the emissions are made a part of the permanent record. However, no permit issuance fee is required and you do not need to renew the permit every three years. The fifteen dollar (\$15) application fee supported the application review and this fee is non-refundable.

This action does not affect your legal obligation to comply with all applicable state and federal regulations including emission regulations. Also, this action in no way precludes the Director's option of requiring a permit to operate these source(s) at some future date.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Board of Review pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Protection Agency and the Environmental Law Division of the Office of the Attorney General within three (3) days of filing with the Board. An appeal may be filed with the Environmental Board of Review at the following:

Environmental Board of Review
250 East Town Street
Room 101
Columbus, Ohio 43215

Very truly yours,

Thomas G. Rigo, Manager
Field Operations Section
Division of Air Pollution Control

EPA-3168
